ST JOSEPHS GUESTHOUSE, ST ALBANS

our st josephs package

Ensures you have all the elements you need to have an amazing wedding at St Josephs. As it is a “naked” venue you need to supply every single item required for a function such as tables and chairs right through to lighting and setting you up a bar. As you can imagine this in itself can be a huge task requiring a great deal of planning, man power and organisation. We effortlessly deliver this all to you and set it up so that you get to relax.

We also offer some really gorgeous personalised touches such as our custom made wedding sign handmade just for you. Without our help you may be left to do the setting up yourself...definitely not a job for a bride!

Instead, we want you to see your ceremony and reception for the first time and be completely blown away. Only when we achieve this do we consider our job done!

Included in the price is a complimentary style consultation so we can work together prior to the big day to ensure all the important elements are considered for your wedding and that we set up the venue exactly as you dream of.

We can tailor our package to suit you - more or less... up to you!

With over 18 years in the wedding industry and the past 3 years as the main stylist at St Josephs Guesthouse we can confidently ensure a perfect wedding at this stunning location.
